Mathura, 281003

EDUCATION

Bachelor of Technology in Computer Science & Engineering, GLA University 2025 - Present
High School - Kanha Makhan Public School, CBSE Board, Mathura
Intermediate - Kanha Makhan Public School, CBSE Board, Mathura

PROJECTS

Gesture Box April - May 2026
Frontend Developer + Computer Vision Link - gesturebox.vercel.app
Individual Project
Technologies Used - HTML, CSS, JavaScript, and MediaPipe
• Gesture Box: Developed a hand-tracking web app where users draw and move boxes in the air using pinch, two-finger and fist gestures, running live in the browser with webcam.

Gesture Canvas May - July 2026
Frontend Developer + Computer Vision Link - gesturecanvas-omega.vercel.app
Individual Project
Technologies Used - HTML, CSS, JavaScript, and MediaPipe
• Gesture Canvas: Developed a creative drawing website that lets users draw and sketch freely using hand movements, offering a simple, interactive, and user-friendly experience on a digital canvas.

Endless Runner August - September 2026
Frontend Developer Link - endlessrunner-zeta.vercel.app
Individual Project
Technologies Used - HTML, CSS, and JavaScript.
• Endless Runner: Developed an endless runner game prototype featuring player movement, obstacle avoidance, collision detection, and score tracking using game development technologies.

Sales Dashboard September - November 2026
Frontend Developer + Data Visualization Link - salesdashboard-three-ochre.vercel.app
Individual Project
Focus Areas - Sales Analytics, Data Visualization, and CSV Import.
• Sales Dashboard: Developed a sales analytics dashboard that imports CSV or sample data and tracks revenue, orders, average order value and repeat customers, with date, category and region filters.

DigiUmpire November 2026
Frontend Developer Link - digiumpire.vercel.app
Individual Project
Focus Areas - Cricket Scoring, Mobile-first PWA, and Camera Tools.
• DigiUmpire: Developed a mobile-first cricket scoring web app that tracks runs, extras, wickets, overs and partnerships, with team and lineup management and camera-based wide-line and crease overlays.

SKILLS

Full-Stack: HTML, CSS, Java, Python, MySQL.
Programming Languages: Java, Python, C,
Core CS: SQL, DSA, Operating System, Computer Network, Basic Software Development Concepts
Tools: Git, Github, VS Code, Docker.
Soft Skills: Problem solving skills, Efficient Time Management, Leadership

CERTIFICATIONS

- SQL (Basic) Certification – HackerRank Link - https://www.hackerrank.com/certificates/ad07fe759f06
- AI Quest - RANKUP (ID-RNK-AQ-26-020) Link - https://rankupskills.in/verify?utm_source=chatgpt.com
- BuildCamp - AI Scalability & Google Antigravity
- AI for Beginners – HP LIFE
